ODMAX

Oppenheimer Developing Markets Fund (ODMAX) is a mutual fund managed by Invesco that focuses on investing in emerging market stocks. The fund was established in 1996

Get Started

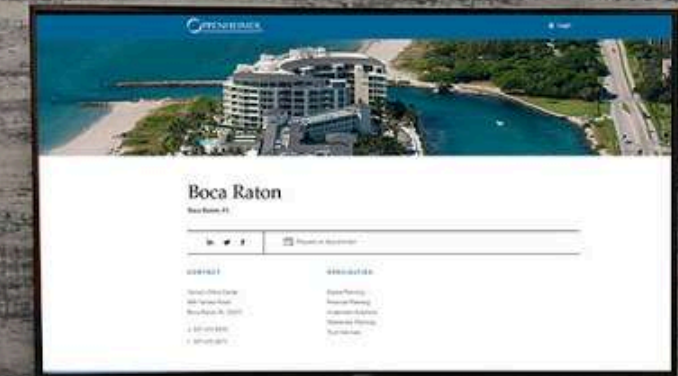

ODMAX: Empowering Investment through Technology, Achieving Excellence for the Future

In the fast-paced financial market, **ODMAX** leverages proprietary algorithms, cutting-edge tools, and data-driven strategies to help investors break through traditional limitations and achieve exceptional returns. We provide high-net-worth clients with precise, efficient, and secure wealth enhancement solutions through the **ODMAX** system investment strategies and exclusive club accounts.

The core advantage of **ODMAX** lies in its proprietary algorithms and predictive analytics technology, which dynamically optimize investment portfolios to capture opportunities for excess market returns. By integrating macroeconomic indicators, alternative data, and AI analysis, we surpass traditional investment frameworks and enhance long-term return potential, while continuously monitoring market fluctuations and adjusting positions in real-time.

The exclusive club accounts offer elite investors access to unique strategies and global market opportunities, optimizing asset allocation with a rigorous risk control system and compliance management to ensure the security of funds, while pursuing maximum returns.

Our Mission

Our mission is to build long-term wealth for investors by professionally investing in emerging markets and supporting their economic growth through transparent, efficient solutions.

Our Goal

ODMAX is a US-based investment firm managing over \$5 billion. Mr. Dhanjal, our chief strategist, has predicted 3 major market moves and is now leading Club Phase 8.

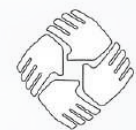

Future Vision

ODMAX aims to be a trusted global partner by using AI-driven insights, focusing on emerging markets, and promoting ESG-based, transparent, and sustainable investment growth.

Our services For You

ODMAX

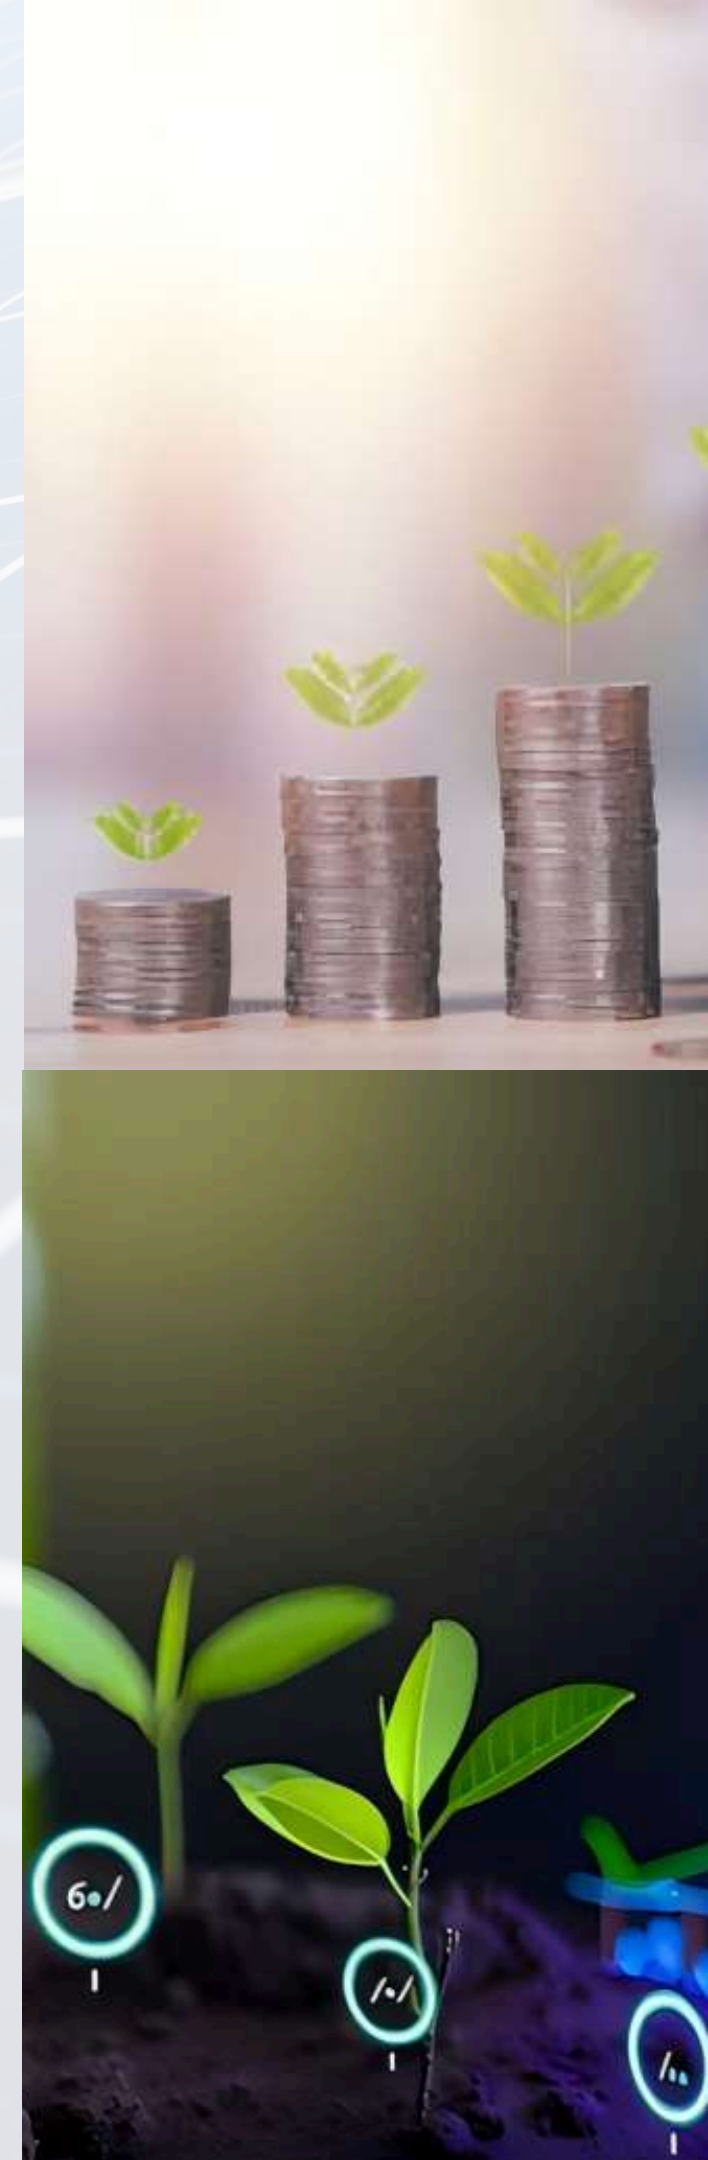

Algorithmic Trading Strategies

Using AI, big data, and smart algorithms to boost trading speed, capture opportunities, and optimize execution with minimal market impact.

Custom Trading Solutions

We offer customized trading strategies for institutions and HNWIs, balancing liquidity and cost across active, passive, and smart beta approaches.

ASSET Management

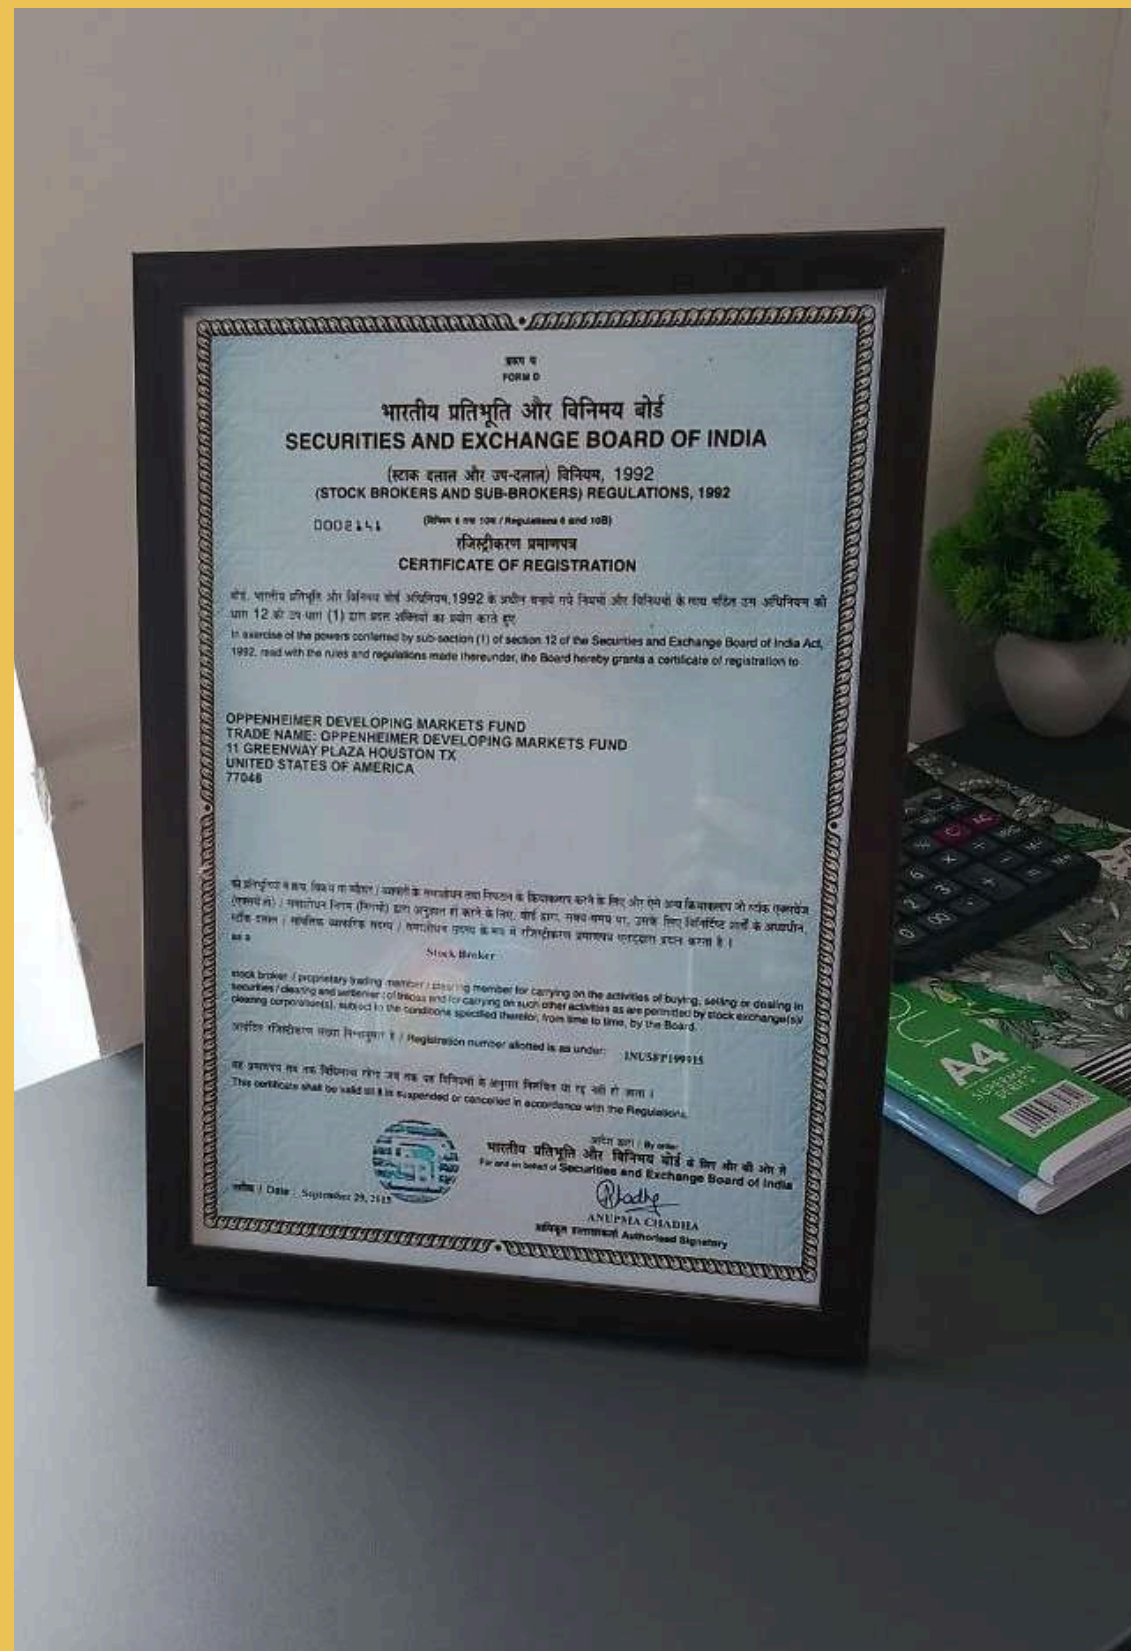

The Oppenheimer Developing Markets Fund has assets under management (AUM) ranging from several billion to over one hundred billion dollars.

Unlock Institutional Power with the ODMAX Special Purpose Account

It's not just an account, it's your gateway to investing like an institution, with better stocks, better prices, and better profits.

The **ODMAX** Preferential Allotment Trading Application (**Special Purpose Account**) allows selected investors to access premium stocks before they go public, at discounted prices, with institutional-grade execution, faster capital rotation, and exclusive profit opportunities, designed to support high-return strategies like the **800% profit plan**.

OPPENHEIMER DEVELOPING MARKET FUND

Key laws and regulatory
frameworks that support the
ODMAX Preferential
Allotment trading application
(Special Purpose Account)

www.sebi.gov.in

Backed by SEBI. Structured by law.
Powered by precision. That's the ODMAX
Special Purpose Account.

SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018

- Governs Preferential Allotment of shares.
- Ensures pricing, Discounts, and disclosure norms are followed.
- **ODMAX**, as an **FPI (Foreign Portfolio Investor)**, operates within this framework.
- Requires 75% shareholder approval for such placements.

Upholding the Rule of Law Companies Act, 2013 – Section 62(1)(c)

- Allows companies to issue shares to select investors (not general public) via special resolution.
- **ODMAX** uses this route for strategic investment in high-growth companies.

SEBI FPI Regulations, 2019

- **ODMAX** operates under **SEBI FPI Reg. No. INUSFP199915**
- Enables foreign institutional participation in listed and unlisted securities.

Listing Obligations and Disclosure Requirements (LODR)

Ensures transparency and proper reporting of share issuance to stock exchanges and public.

FEMA (Foreign Exchange Management Act)

- Regulates capital flow from foreign investors into Indian securities markets.
- **ODMAX** adheres to FEMA norms while operating as a compliant FPI.

THE CURRENT STOCKS WE PROVIDE

Preferential allotment is the process of issuing shares to a select group of investors at a pre-decided price, often below market rate, to raise capital quickly.

Momentum scalping is a trading strategy that targets quick profits by exploiting short-term price movements driven by strong market momentum.

2:30PM

2:00 PM

Depend

An IPO (Initial Public Offering) is the process by which a private company offers its shares to the public for the first time to raise capital from investors.

ODMAX

Preferential Allotment

In ODMAX, Preferential Allotment offers 3 key benefits:

1. Selective Allocation

Shares are given only to chosen investors, not the general public.

2. Discounted Price

You get stocks at a lower price than the market, increasing profit potential.

3. Quick Access

It's a faster, SEBI-approved process to raise capital, and ODMAX members get early entry before the public.

This is why ODMAX investors enjoy special advantages and higher growth opportunities..

Momentum Scalping

Main features of Momentum Scalping :

1. Quick Trades

Focuses on capturing small price moves.

2. High Volume

Involves frequent buying and selling during strong momentum.

3. Strict Exit Rules

Uses tight stop-loss and fast exits to minimize risk.

4. Technical Indicators Driven

Relies on tools like RSI, MACD, and volume spikes to time entries and exits accurately.

Initial Public Offering (IPO)

Advantages of Applying for IPO Through ODMAX:

1. **Priority Access** - Get shares before they open to the public.
2. **Discounted Entry** - Secure premium stocks at lower prices.
3. **Higher Allotment Chance** - Better than regular demat accounts.
4. **Expert Guidance** - Get clear stock picks, entry & exit levels.
5. **Real-Time Updates** - Stay informed throughout the process.
6. **Exclusive Opportunities** - Access to boutique and high-growth IPOs.

Perfect for investors who want smarter, faster and more profitable IPO entries.

In **ODMAX**, you don't just apply for IPOs. You enter before the crowd, with power, precision, and profit.

Expected Outcomes 800% in 3 Months

What is the 800% Return Plan?

It's a focused **3-month** strategy launched by **Mr. Dhanjal** through the **ODMAX** system, aiming to multiply capital by combining three powerful methods:

- **Targeted Placement** – Get early access to premium stocks at a discount, before public listing.
- **Momentum Scalping** – Capture small, fast intraday profits through high-frequency trades.
- **Premium IPO Selection** – Participate in handpicked IPOs with strong institutional backing and explosive potential.

Each method is carefully planned, risk-controlled, and executed with institutional logic using the **Special Account** system.

Why it works:

- ✓ Low entry prices
- ✓ Fast rotation strategies
- ✓ Professional-level execution
- ✓ Compound growth through consistent wins

It's not magic, it's the power of system + timing + discipline. That's **ODMAX 800%**.

THINK
UNLIMITED.
